Institute of Computer Science

Secure and Private Computing: Foundations of Ethical Hacking – Autumn 2026

Exercise Session 1

-

Intro

Introduction

Welcome to SPC: Foundations of Ethical Hacking Exercises!

What to expect from the Exercise Sessions

Provide **explanatory exercises** on the lectures, that we will solve in class

Demonstrate security protocols and attacks live

Discuss selected **topics & implementations**

Answer **ANY** question that you might have

Course Roadmap

Lecture time
10.15 – 12.00

Class
83-2223

For detailed & classroom info see also schedule on canvas

Seminar / Conference

Introduction to the scientific process, but without the hard parts!

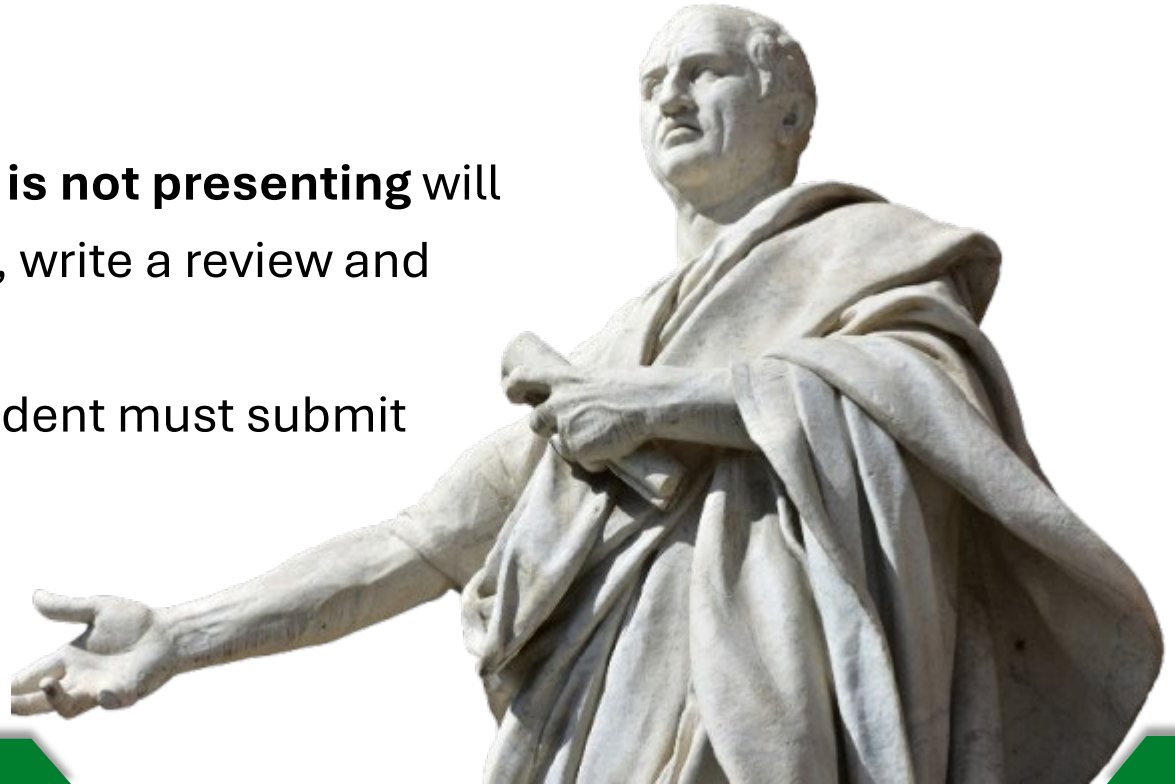
- **Paper Submissions**

Each team, depending on their selected topic and assigned date, will need to upload their selected paper **one week** in advance on EasyChair.

- **Reviews**

Each week, **everyone who is not presenting** will read the submitted papers, write a review and upload it on EasyChair.

Individual work – each student must submit a review each week.



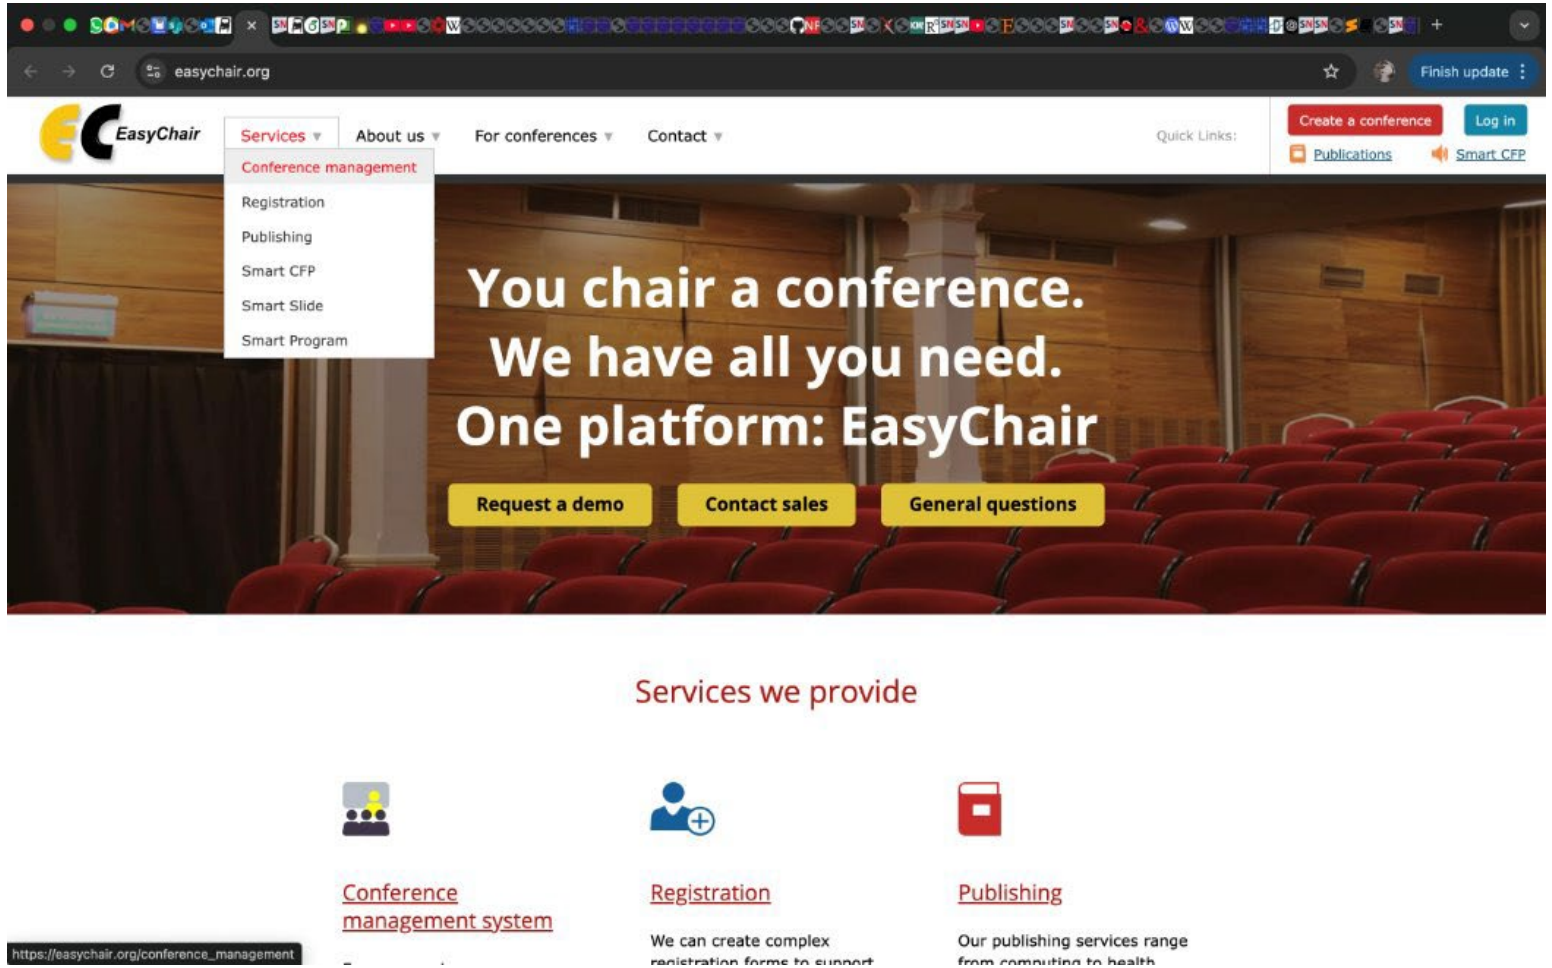
Organization:
Submitted papers and reviews on EasyChair

Why EasyChair?

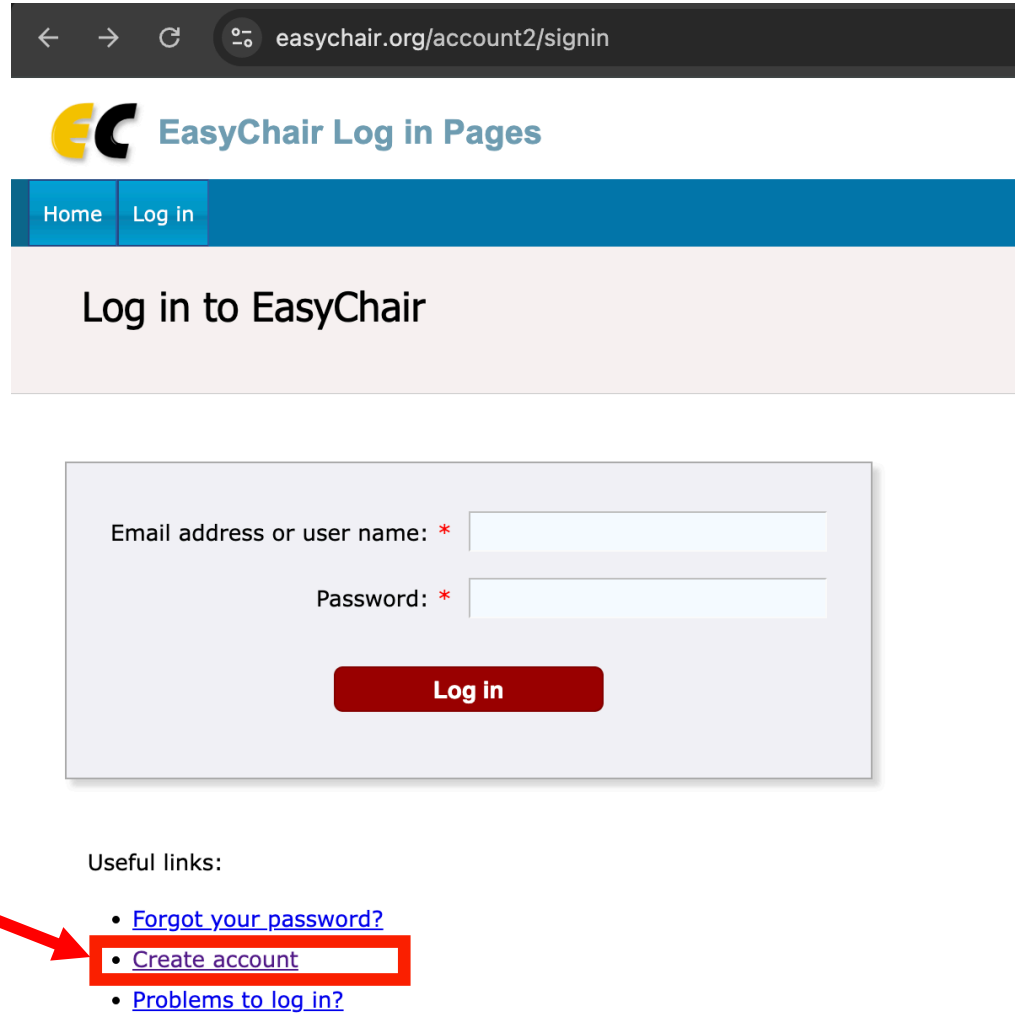
- **Simple**
  Use your **University ofSt. Gallen** email to register and you'll be able to receive every update on paper/review submissions!

- **Realistic**
  Real-world conferencesheld on this platform!

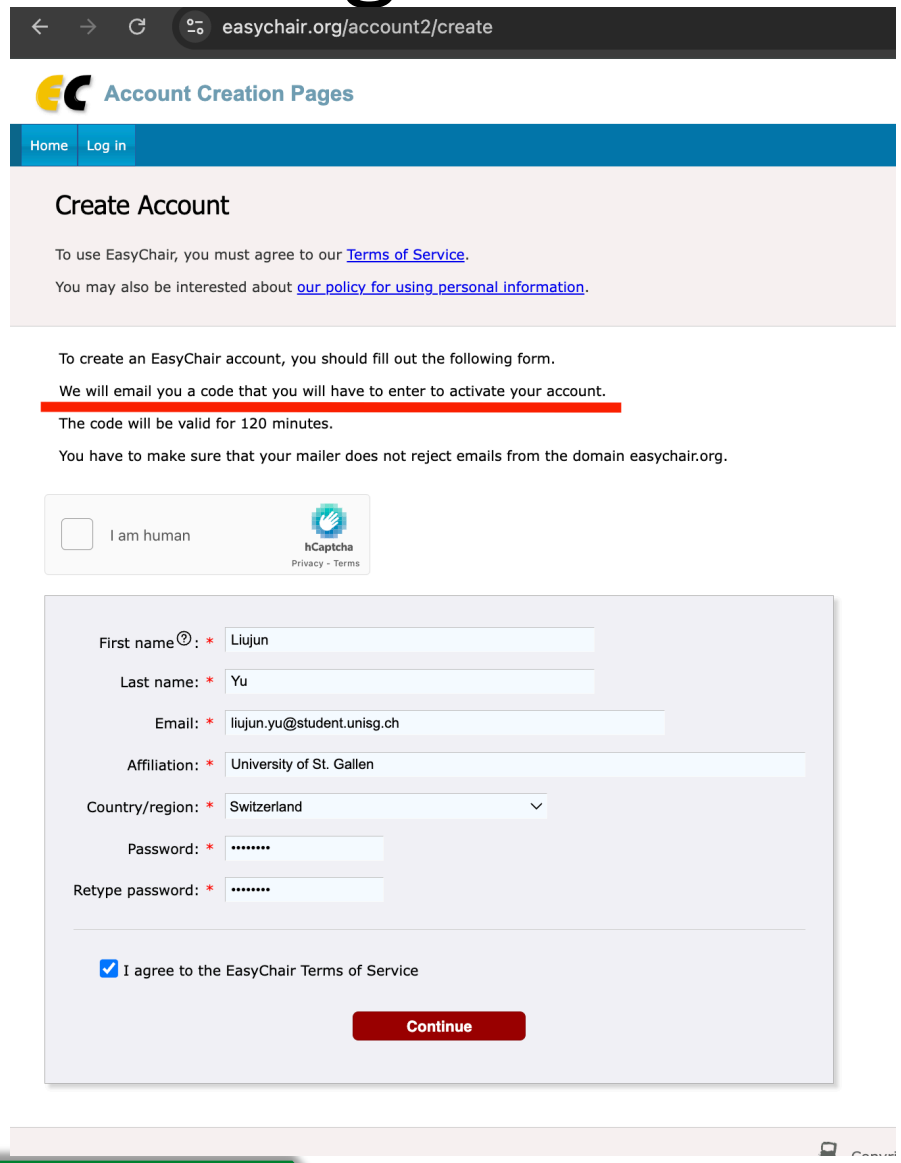
A taste of thereal deal



How to – Register on EasyChair?

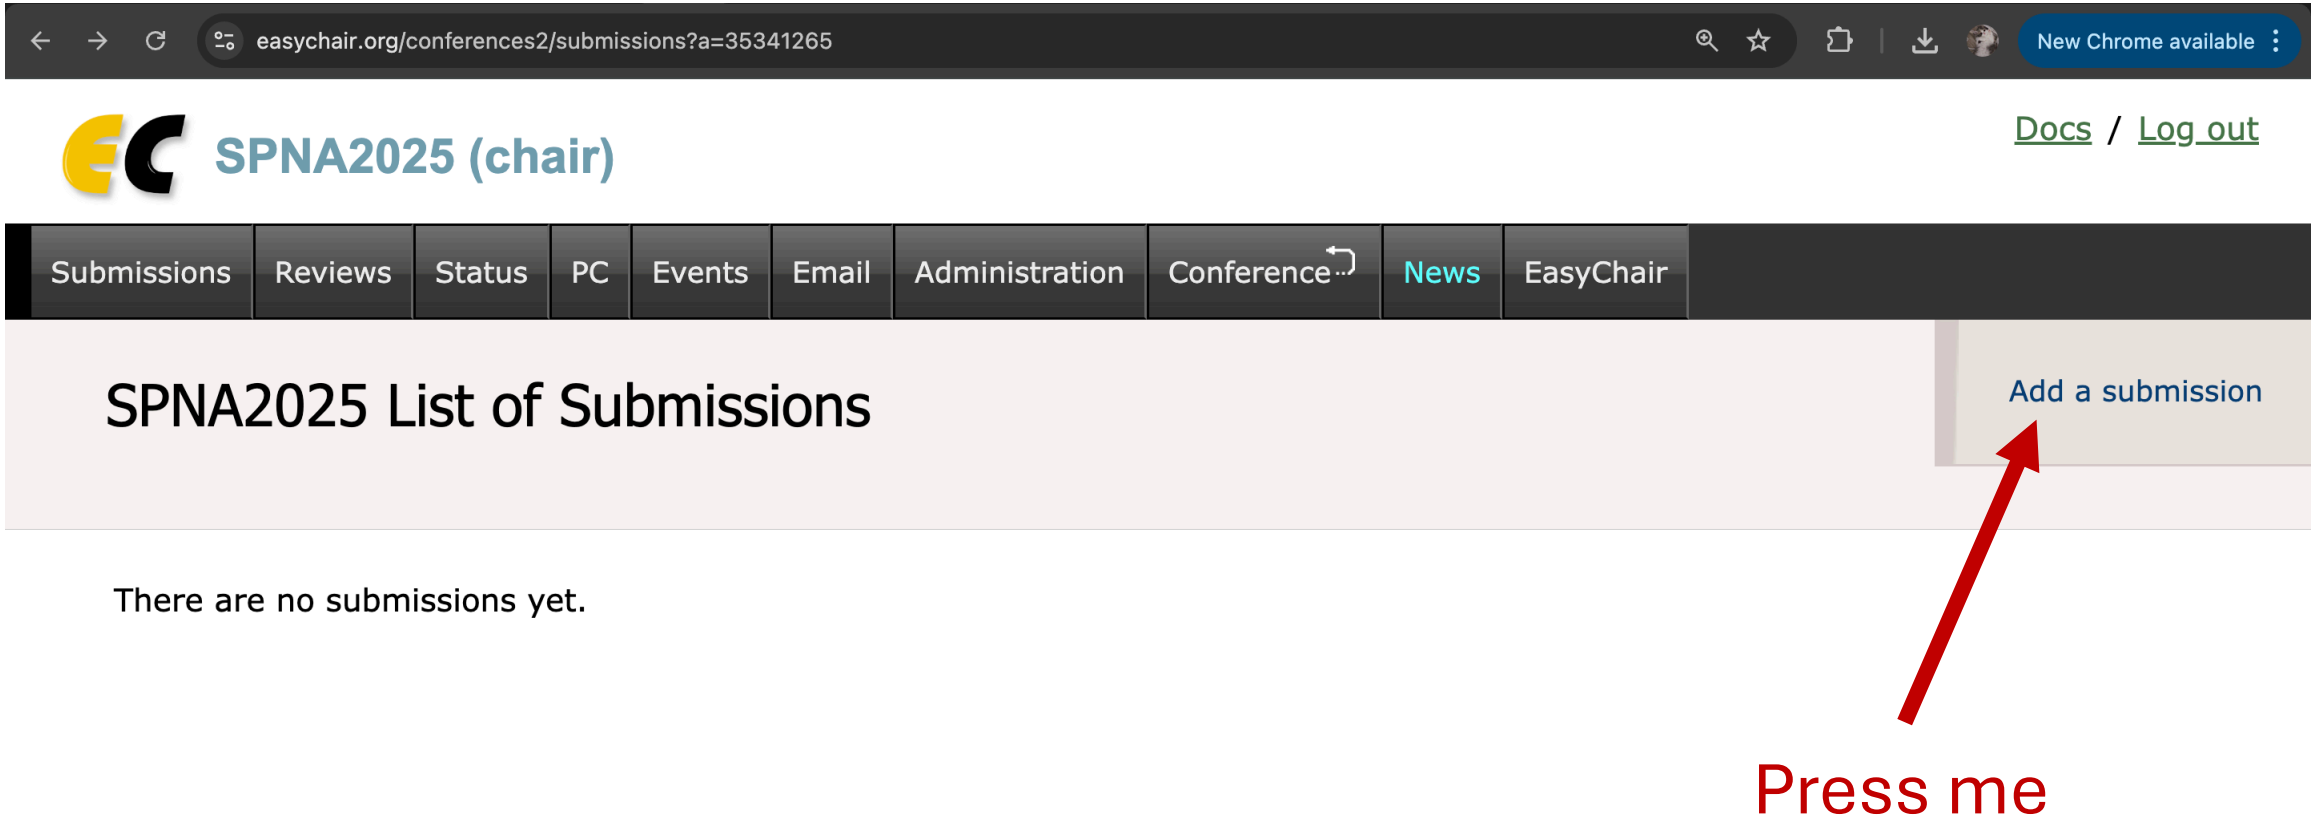


How to – Register on EasyChair?



Enter the code to activate your account!

How to – Make a submission?



How to – Make a s

Use your own information to make the publication.

In conferences, this information is used to have a contact between authors and conference stuff. In our case, we are already in contact ☺

New Submission for SPNA2025

Follow the instructions, step by step, and then use the "Submit" button at the bottom of the form. The required fields are marked by *.

Author Information

For each author please fill out the form below. Some items on the form are explained here:

- **Email address** will only be used for communication with the authors. It will not appear in public Web pages of this conference. The email address can be omitted for not corresponding authors. These authors will also have no access to the submission page.
- **Web page** can be used on the conference Web pages, for example, for making the program. It should be a Web page of the author, not the Web page of her or his organization.
- Each author marked as a **corresponding author** will receive email messages from the system about this submission. There must be at least one corresponding author.

Author 1 (click here to add yourself) (click here to add an associate)

First name†: * Liujun

Last name: * Yu

Email: * liujun.yu@student.unisg.ch

Country/region: * Switzerland

Affiliation: * University of St. Gallen

Web page:

☑ corresponding author

Author 2 (click here to add yourself) (click here to add an associate)

First name†: *

How to – Make

Re-use the abstract.
Also re-use or find keywords

To correctly write down keywords, write them one under the other with no commas or separating characters (other than “enter”)

Title and Abstract

The title and the abstract should be entered as plain text, they should not contain HTML elements.

Title: * My super cool paper

Abstract: *

```
My paper is so cool that it must have a super cool abstract.
```

Keywords

Type a list of keywords (also known as key phrases or key terms), **one per line** to characterize your submission. You should specify at least three keywords.

Keywords: *

```
digital signatures
key exchange
cool cryptography stuff
```

How to – Make a submission?

Upload the PDF

Files

The following part of the submission form was added by SPNA2025. It has neither been checked nor endorsed by EasyChair

Paper. Upload your paper. The paper must be in PDF format (file extension .pdf)

Choose file Presentation paper.pdf

Ready?

If you filled out the form, press the 'Submit' button below. **Do not press the button twice: uploading may take time!**

Submit

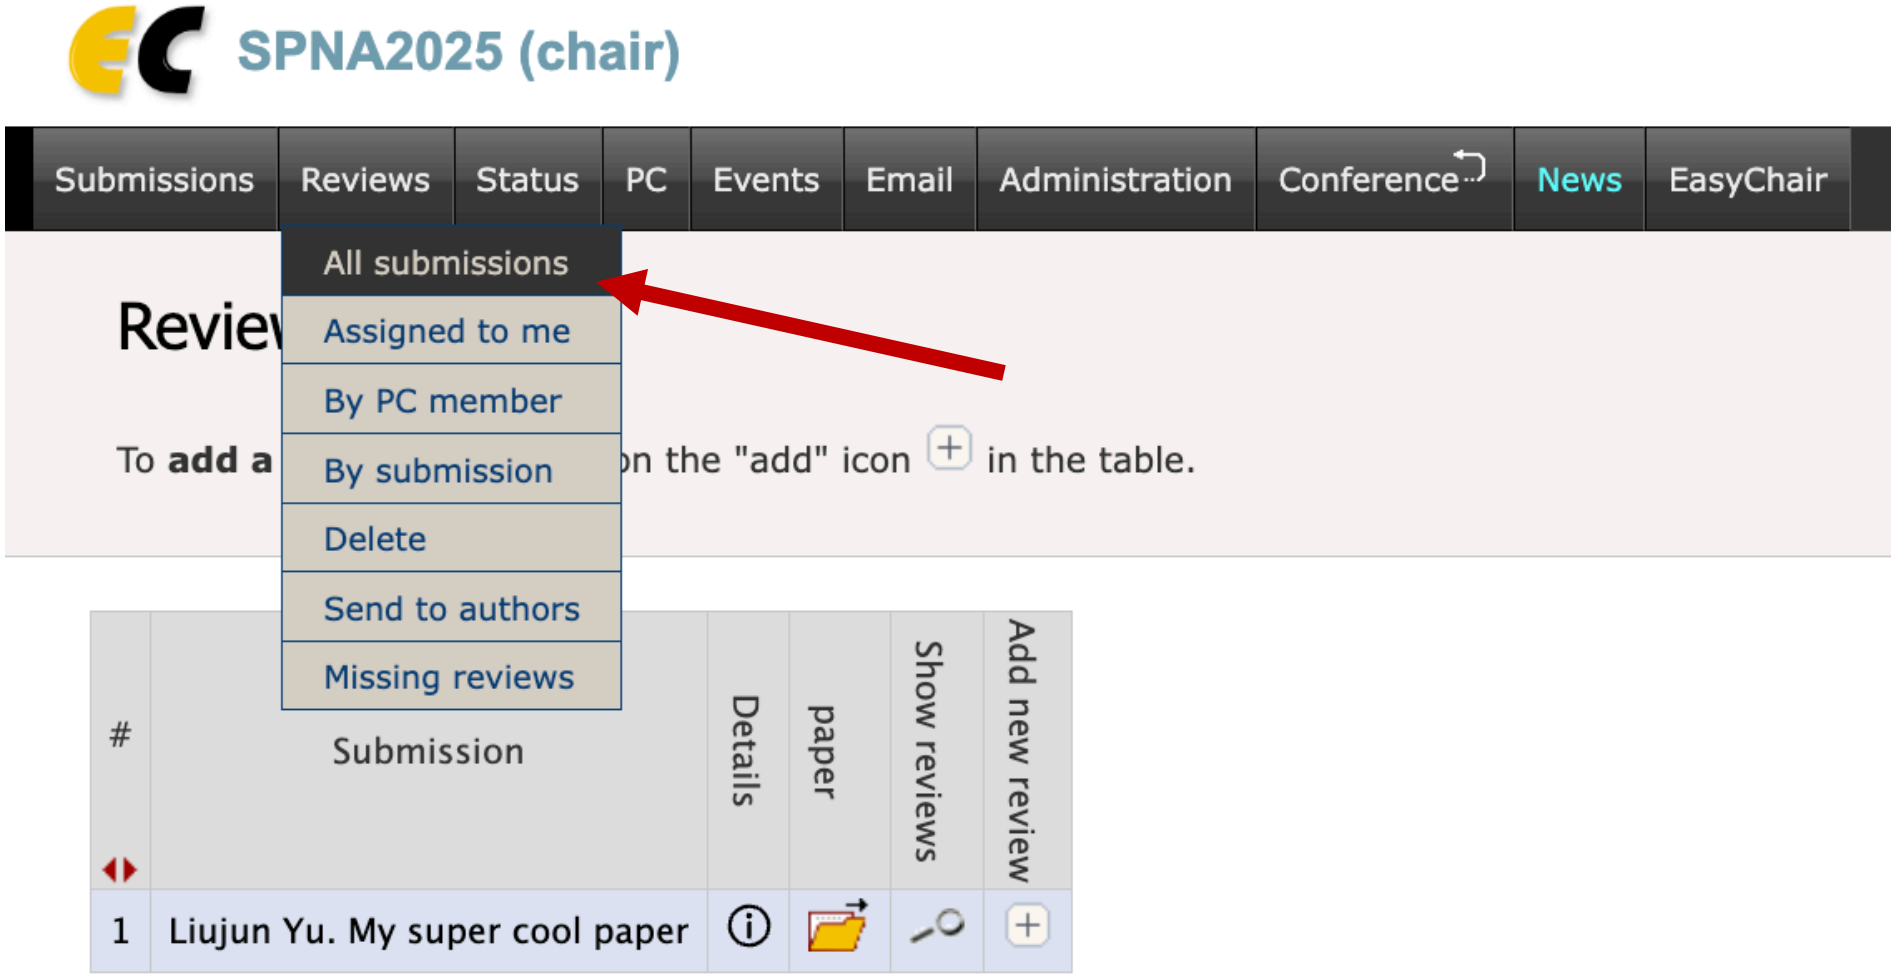
How to – Make a review?



How to – Make a review?

#	Submission	Details	paper	Show reviews	Add new review
1	Liujun Yu. My super cool paper				

Write your own review (most important!)

Download paper

Show the reviews from others

How to – Make a review?

General Evaluation

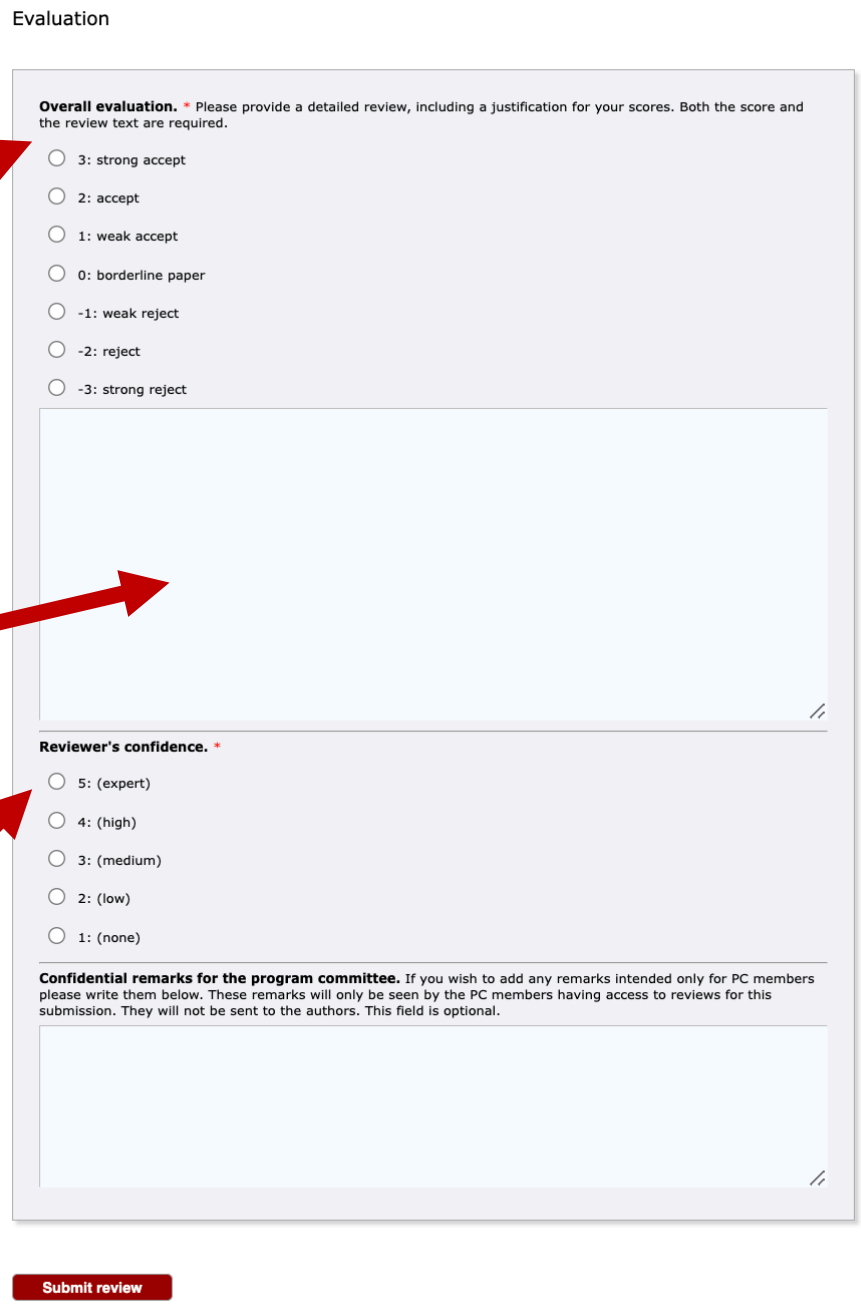
- How well do you think is this paper?
- Can be evaluated by:
  - The significance of idea
  - Is the paper's point convincing?

The main body of your review can be written here in text

(the structure is discussed in the latter part of this presentation)

Reviewer's confidence

- How confident are you about your statement?
- Important part for giving reviews
  - But will not be judged in this course.
  - But the truth here will give us insight on the challenging-ness of this course.



How to – Make a review?

Done.

Review for Submission 1

This submission is on your watchlist. This means that you will receive by email all reviews and comments about this submission.
Click here to view or edit your watchlist.

Review 1	
Paper	1
Title	My super cool paper
Authors	Liujun Yu
PC member	Liujun Alice Yu
Time	Sep 17, 21:17 UTC
Overall evaluation	**2**: accept I write some cool reviews to my peers. Question: how should a horse wear its pants?
Reviewer's confidence	**5**: (expert)
Confidential remarks for the program committee	

Reviews – Structure / Evaluation

Structure

You can use the following structure:

- **Summary:** short (4-6 sentence) explanation of what the paper is all about – no details required here
- **Strengths:** in your opinion, with argumentation
- **Weaknesses:** in your opinion, with argumentation
- **Questions to presenter:** if something is unclear or of special interest, add your questions in the end of the review.

!!! We require that you always ask questions to your peers in your reviews) !!!

Evaluation

We care that:

- The students who are not presenting, are involved and can follow the presentation.
- Questions are asked in advance through reviews.
- Presenters also have time to crunch down the questions and create replies.
- Presentations are interactive.

The reviews are evaluated:

1. Content and Structure
2. Consistent submissions

Seminar / Conference – Review Schedule

Problem Setting:

- 4 teams need to present and review papers.
- Each week: 1 team presents / 3 teams review (each team member separately)

Week 1 (special case because of break)

- Presentation day is 13.04
- Paper Submission Deadline: 20.03 (1 week + break)
- Review Submission Deadline: 10.04

Seminar – What we(Katerina) expect

- **Presentation Delivery**

Clarity of explanation, understandability, confident and fluent delivery…

- **Technical Details**

Show your understanding of the topic using some concrete examples

- **Means of Illustration**

The less text, the better! Try to illustrate how everything works – help the audience follow the challenging topics

- **Q&A**

Be able to tackle questions from the class

Submission: please send us your presentation slides via email (cc Katerina and both TAs)

Implementation – What we(Katerina) expect

- **Code-wise**

Follow the supervisor's suggestions, we expect that you will be able to do some basic implementation of the protocol

- **Demonstation**

Provide a 10-15 minutes live demonstation of your approach, and in a clear way, show what happens during execution

- **Clarity**

Be in a position to explain and argue about your implementation details and decisions

Submission: please send us your code via email (cc Katerina and both TAs) (git or folder accepted)

...and from project supervisors

What you expect from us

Presentations/Implementations

We can guide you and help you structure your approach.
Discussions in class may be beneficial to all!

Project Supervisors

Can provide specific instructions regarding the scope and content of your presentation and implementation.
Get in touch in advance!

General

- The exercise session is a time for you,

ask questions and be open about any issues that arise!

- We really appreciate any and all of your feedback!

- We are extremely happy to **help!** Just contact us!

***Remember**: there are no stupid questions, no one expects that you know everything.*
